

# Environmental Impact Statement Approach and Focus of Analysis

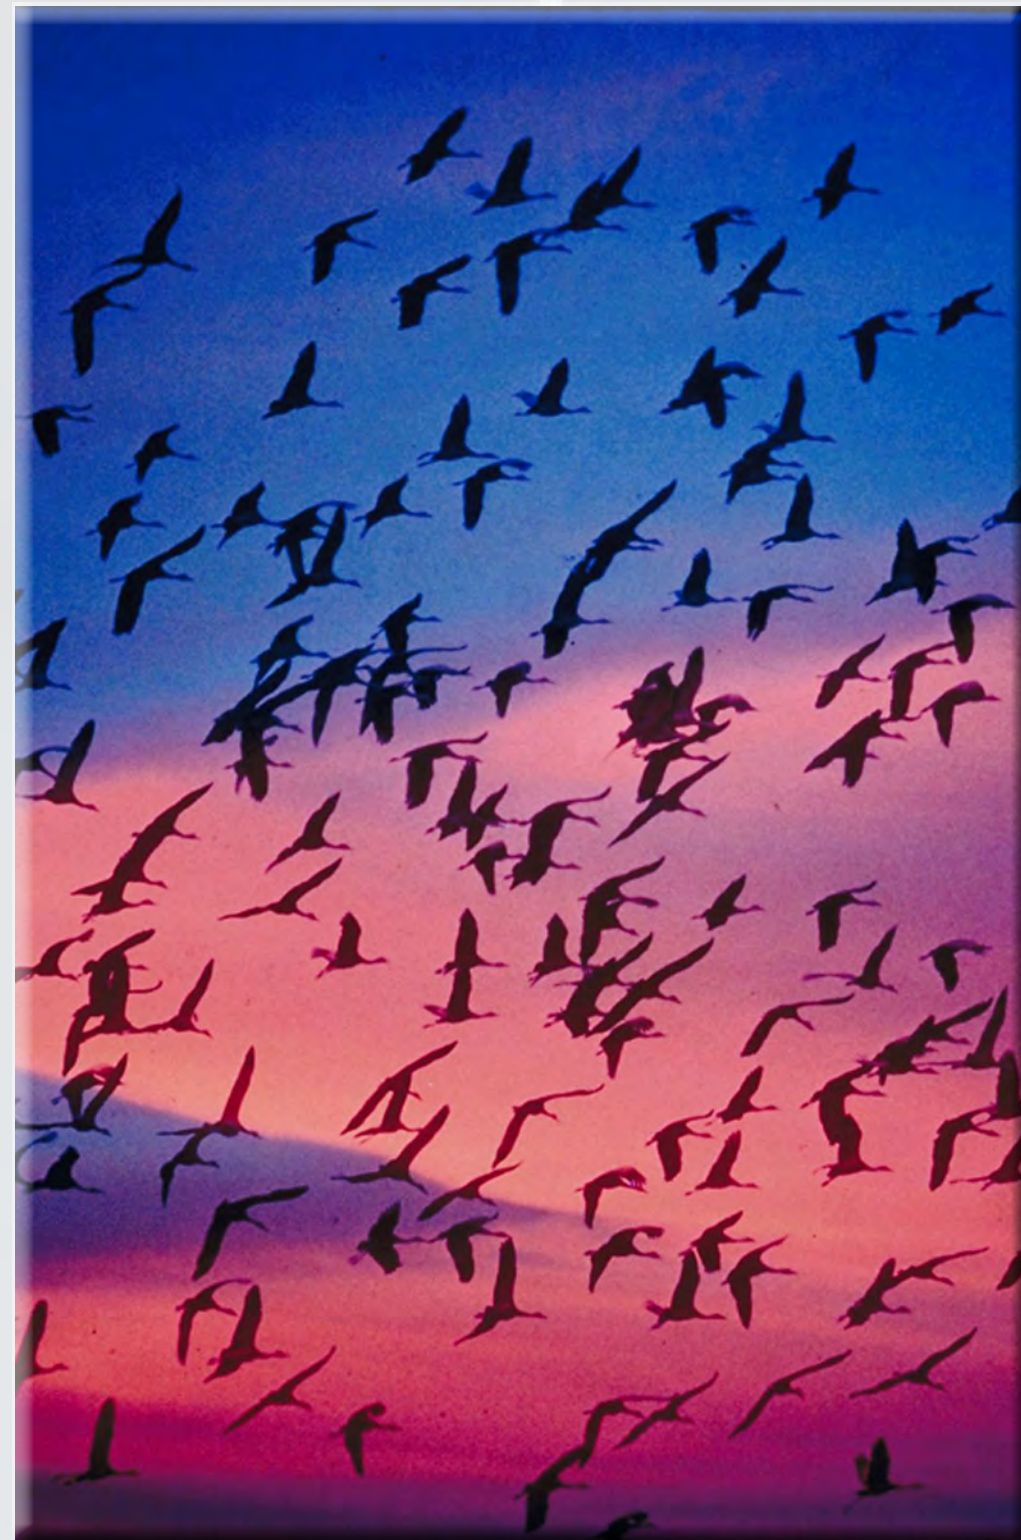

## Analyses will focus on key environmental issues and associated impacts

## EIS will consider:

- Potential impacts to natural and human environment
- Measures that could be applied to lessen these impacts

## Key Issues

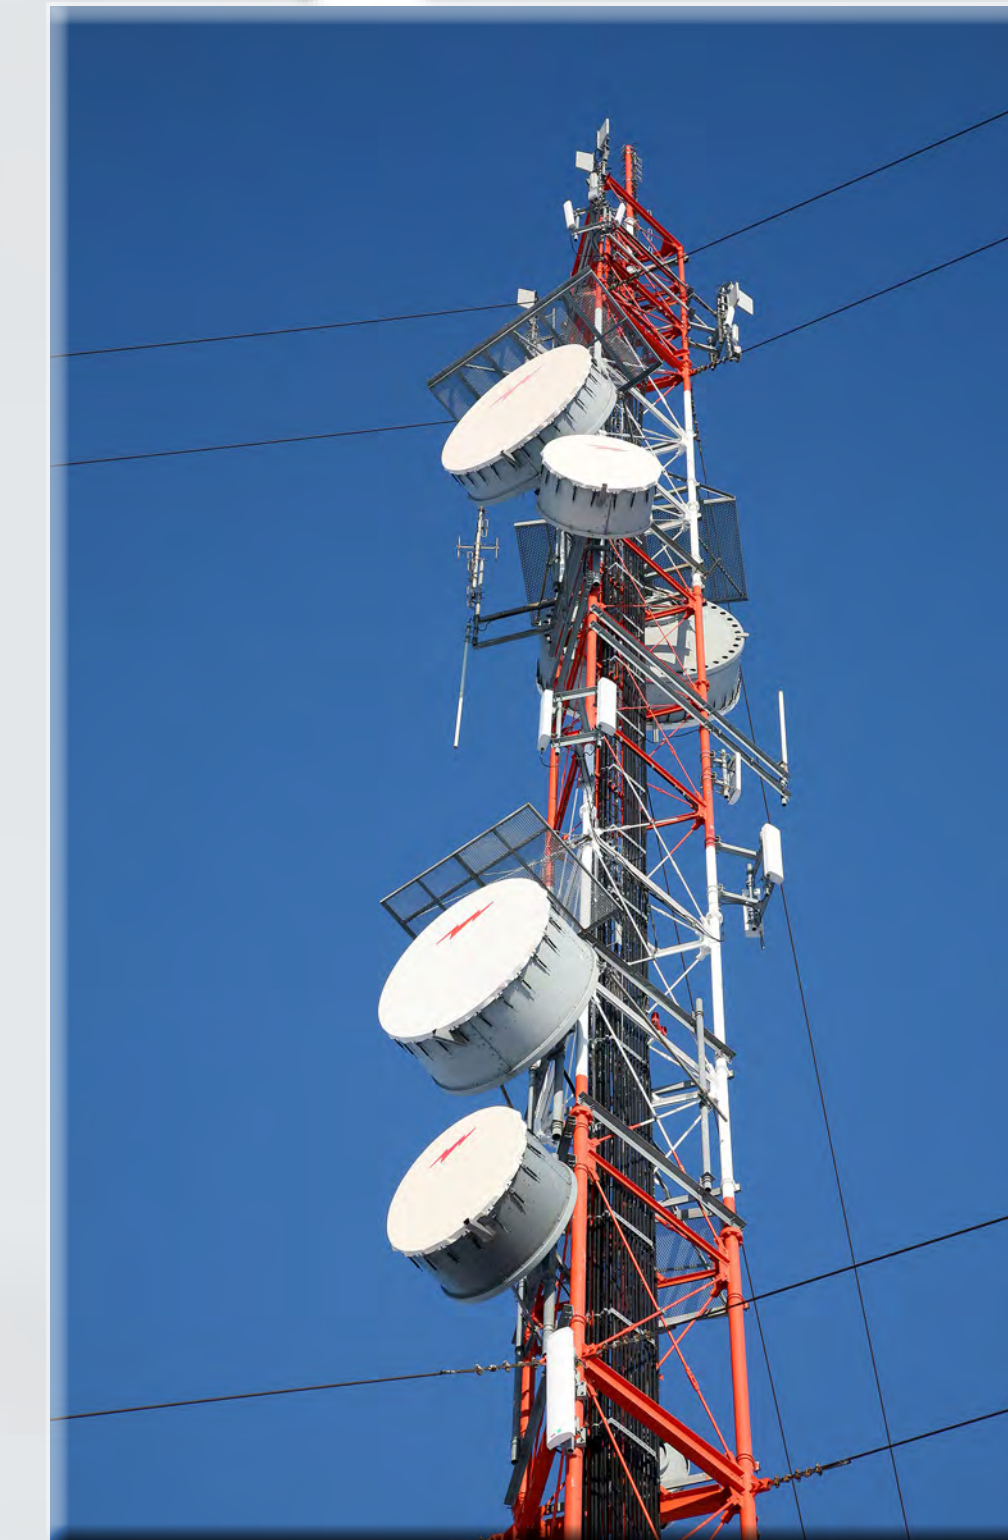

### • Impacts to Birds and Bats

- Bird and bat studies are currently being conducted according to Ohio Department of Natural Resources and United States Fish and Wildlife Service protocols

### • Shadow/Flicker Disturbance to Nearby Offsite Individuals

### • Visual Impacts within Region

### • Impacts to Communication Transmissions

### • Operational Noise to Nearby Offsite Individuals

### • Construction Disturbance to Plants and Wildlife

## Other Areas of Analysis

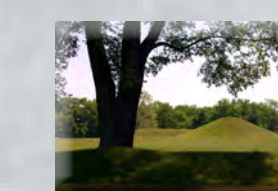

Land Use

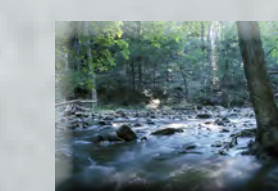

Socioeconomics

Air Quality

Cultural Resources

Water Resources

Hazardous Materials and Waste

Utilities

Geology and Soils

Transportation

Environmental Justice
